

## Benchmarks for the current public transport system

Dear partners! We would like to invite you for a seminar "Benchmarks for the current public transport system". The event will take place at the **Office of the Marshal of the Pomeranian Voivodeship in Gdańsk** (from 9.30 - 15.15). It is a seminar organized as part of the international Interconnect project.

The seminar will include information about results of previous work in the field of quality analysis of transport systems made by InnoBaltica Ltd. in cooperation with Interconnect project partners. During the debate, the proposed benchmarks of the analyzed systems will be discussed and their potential for replication in other regions of the South Baltic area.

An important element opening the seminar will be the **INAUGURATION OF THE PILOTAGE** - start up phase of information and ticketing system Pomorskie - Blekinge.

We hope that you will have the possibility to join this seminar and contribute to making this seminar a success with your knowledge and ideas.

Participation is free - includes seminar, lunch and coffee/tea.

The seminar will be translated between Polish and English on a regular basis.
